

## Panduan Pemakaian

Nama program: MMORPG's Role Guesser

Materi yang diterapkan: Recursion, Map, Tree

Deskripsi singkat:

Program ini memuat quiz yang berisi beberapa pertanyaan sederhana dengan jawaban yes/no lalu jawaban dari pengguna akan menentukan hasil berupa role dari permainan genre MMORPG

Prosedur:

1. Akan diberikan pertanyaan kepada pengguna.
2. Kemungkinan jawaban dari pertanyaan tersebut hanyalah Ya atau Tidak (YES/NO)
3. Pengguna menginputkan "1" untuk menjawab Ya dan menginputkan selain dari itu untuk menjawab Tidak
4. Pertanyaan yang diberikan tergantung dari jawaban pengguna
5. Jika program sudah cukup dalam mengumpulkan data, maka akan ditampilkan hasil program
6. Hasil program berupa tebakan role dari program, deskripsi role (kondisional), dan sifat dari role
7. Terdapat fitur pendukung untuk pengguna yang tidak familiar dengan MMORPG maupun istilah-istilah game

Contoh pemakaian:

1. Header dari program

```
D:\Kuliah\Semester 2\Struktur Data & Algoritma\praksda\respons\MMORPG_role_guesser.exe
==>> MMORPG ROLE's GUESSER <<==
This program will ask you several YES/NO questions and then it will guess your role based on your answers.
The roles are based on MMORPG games's role.
::Type 1 for YES and other for NO::
```

2. Pengguna tidak familiar dengan MMORPG sehingga menjawab Tidak

```
Beforehand, are you familiar with MMORPG games?
? 2
```

3. Ditampilkan penjelasan singkat terkait MMORPG

```
MMORPG is the short of Massive Multiplayer Online Role Playing Game
Basically, you play a character with many other player and you build your character in such a way
that you will be having a role. The role is used as classification of what will you do in combat.
Players usually teamed up in a party to fight monsters and bosses and there the role is used.
```

4. Quiz dimulai

```
!!! Questions !!!
```

5. Pertanyaan pertama, pengguna menjawab Ya

```
Do you like being highlighted?
? 1
```

6. Pertanyaan selanjutnya, pengguna menjawab Ya

```
Do you like to fight enemies head-on?
? 1
```

7. Pertanyaan selanjutnya, pengguna menjawab Tidak

```
Do you like being agile and get an advantageous position?
? 2
```

8. Program selesai menebak, hasil program ditampilkan

```
=====
Your role is [WARRIOR]
Desc   : [WARRIOR] is a melee character that can deal significant physical damage, usually wear a full set of armor
Trait  : You are a simple person. You prefer being straightforward if possible.
=====
```

Secara keseluruhan:

```
D:\Kuliah\Semester 2\Struktur Data & Algoritma\praksda\responsi\MMORPG_role_guesser.exe
==>> MMORPG ROLE's GUESSER <<==

This program will ask you several YES/NO questions and then it will guess your role based on your answers.
The roles are based on MMORPG games's role.
::Type 1 for YES and other for NO::
